## **DETAILED ACTION**

## Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-17, drawn to a system for continuously sensing mechanical activity of

the heart, classified in class 607, subclass 6.

II. Claims 18-20, drawn to a method of delivering cardiac resynchronization therapy,

classified in class 607, subclass 17.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions

are distinct if it can be shown that either: (1) the process as claimed can be practiced by another

materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice

another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as

claimed can be used to practice another and materially different process that does not employ

cardiac resynchronization therapy but a process that delivers defibrillation a tachycardia pacing

modality, a single-chamber pacing modality, a bradycardia pacing modality, or any other pacing

therapy known in the art.

3. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art because of their recognized divergent subject matter, restriction for

examination purposes as indicated is proper.

Art Unit: 3762

4. A telephone call was made to Paul H. McDowall on September 20, 2005 to request an

oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37 CFR

1.143).

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Jessica L. Reidel whose telephone number is (571) 272-2129.

The examiner can normally be reached on Mon-Thurs 7-4:30 and every other Friday 7-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Robert Pezzuto can be reached on (571) 272-6996. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.
